

Lundin Gold Reports Local Community Unrest

VANCOUVER, BC, Oct. 20, 2020 /CNW/ - **Lundin Gold Inc.** ("Lundin Gold" or the "Company") (TSX: LUG) (Nasdaq Stockholm: LUG) reports local community unrest following the collapse of the bridge over the Zamora River to the town of Los Encuentros on the weekend.

On October 17, 2020, the public bridge in Los Encuentros, which is a town approximately 20 kilometres away from the Company's Fruta del Norte gold mine ("Fruta del Norte") in Ecuador, collapsed into the river. There were no injuries. The construction of a new bridge in this location was previously agreed in 2018 to be funded between the Company and local and national stakeholders. As such, the Company publicly reconfirmed its prior commitment to funding the construction of this new bridge. This construction was and remains the responsibility of the provincial government.

Despite Lundin Gold's immediate show of support following the incident, a group of local community members has erected a road blockade on the public road into Fruta del Norte. Protesters are expressing frustration over the lack of progress to date with respect to the construction of the new bridge and the condition of the older bridge and its failure. They are making a variety of demands, including some directed to the Company. This blockade is preventing the Company from moving personnel and goods, including concentrate, to and from Fruta del Norte.

While operations are currently uninterrupted and continuing at site, the Company is monitoring the impact that the blockade is having on the transportation of its goods, personnel and concentrate and is engaging with all levels of government and with community members to resolve the matter in a cooperative and constructive manner and in a timely fashion.

About Lundin Gold

Lundin Gold, headquartered in Vancouver, Canada, owns the Fruta del Norte gold mine in southeast Ecuador. Fruta del Norte is among the largest and highest-grade gold projects in the world currently in production.

The Company's board and management team have extensive expertise in mine operations and are dedicated to advancing Fruta del Norte responsibly. The Company operates with transparency and in accordance with international best practices. Lundin Gold is committed to delivering value to its shareholders, while simultaneously providing economic and social benefits to impacted communities, fostering a healthy and safe workplace and minimizing the environmental impact. The Company believes that the value created through the development of Fruta del Norte will benefit its shareholders, the Government and the citizens of Ecuador.

Caution Regarding Forward-Looking Information and Statements

Certain of the information and statements in this press release are considered "forward-looking information" or "forward-looking statements" as those terms are defined under Canadian securities laws (collectively

referred to as "forward-looking statements"). Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, identified by words or phrases such as "believes", "anticipates", "expects", "is expected", "scheduled", "estimates", "pending", "intends", "plans", "forecasts", "targets", or "hopes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "will", "should" "might", "will be taken", or "occur" and similar expressions) are not statements of historical fact and may be forward-looking statements.

By their nature, forward-looking statements and information involve assumptions, inherent risks and uncertainties, many of which are difficult to predict, and are usually beyond the control of management, that could cause actual results to be materially different from those expressed by these forward-looking statements and information. Lundin Gold believes that the expectations reflected in this forward-looking information are reasonable, but no assurance can be given that these expectations will prove to be correct. Forward-looking information should not be unduly relied upon. This information speaks only as of the date of this press release, and the Company will not necessarily update this information, unless required to do so by securities laws.

This press release contains forward-looking information in a number of places, such as in statements relating to the impact of the community unrest and the Company's efforts to resolve the same. There can be no assurance that such statements will prove to be accurate, as Lundin Gold's actual results and future events could differ materially from those anticipated in this forward-looking information as a result of the factors discussed in the "Risk Factors" section in Lundin Gold's Annual Information Form dated March 24, 2020 and its short form prospectus dated June 8, 2020, which are available at www.lundingold.com or on SEDAR.

Lundin Gold's actual results could differ materially from those anticipated. Factors that could cause actual results to differ materially from any forward-looking statement or that could have a material impact on the Company or the trading price of its shares include: risks relating to the impacts of a pandemic virus outbreak; risks associated with the Company's community relationships; risks related to financing requirements; failure by the Company to maintain its obligations under its credit facilities; operating risks; risks associated with the ramp up of mining operations; risks related to political and economic instability in Ecuador; risks related to production estimates; risks related to Lundin Gold's compliance with environmental laws and liability for environmental contamination; volatility in the price of gold; shortages of critical supplies; lack of availability of infrastructure; deficient or vulnerable title to mining concessions; easements and surface rights; risks related to the Company's workforce and its labour relations; inherent safety hazards and risk to the health and safety of the Company's employees and contractors; risks related to the Company's ability to obtain, maintain or renew regulatory approvals, permits and licenses; the imprecision of mineral reserve and resource estimates; key talent recruitment and retention of key personnel; volatility in the market price of the Company's shares; the potential influence of the Company's largest shareholders; uncertainty with the tax regime in Ecuador; measures to protect endangered species and critical habitats; the cost of non-compliance and compliance costs; exploration and development risks; the Company's reliance on one project; risks related to illegal mining; the reliance of the Company on its information systems and the risk of cyber-attacks on those systems; the adequacy of the Company's insurance; uncertainty as to reclamation and decommissioning; the ability of Lundin Gold to ensure compliance with anti-bribery and anti-corruption laws; the uncertainty regarding risks posed by climate change; the potential for litigation; limits of disclosure and internal controls; security risks to the Company; its assets and its personnel; conflicts of interest; the risk that the Company will not declare dividends; and social media and the Company's reputation.
